

## Student Result

**Student Name:** Aditya Abhay Mogal

**Exam:** Company Specific Test 2

**Score:** 5.0/30.0

**Percentage:** 16.67%

### Question-wise Summary

Sr.no	Question	Selected Answer	Correct Answer
1	In a certain code language 'STRANDED' is written as 'XYWFSIJI'. How will 'MIGRANT' be written in that language?	<b>KRBWFSY</b>	<b>RNLWFSY</b>

2

Direction: Read the following information carefully to answer the questions given below.

There are six Investors named Kavita, Laxman, Manish, Niraj, Om and Parvati, purchased different number of shares in HUL Company. No two-person purchased the same number of shares. According to the number of purchased share, three people among them invested between Om and Kavita where Om invested more than Kavita.

Parvati who purchased 37 shares, purchased less than Niraj.

Manish purchased 34 shares which is less than Laxman.

None of them purchased between the number of shares Manish and Laxman purchased. Om did not purchase maximum share among them. Q. Who purchased the maximum number of shares?

**Parvati****Niraj**

Direction: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All Cooks are Food

Only a few Foods are Drink

No Drink is Snack.

Conclusions:

I. Some Cooks are not Drink; II. Some Foods are not Snack.

Which conclusion follows?

**Both I and II follow**

**Only II follows**
